

GL10B Alternate Energy Sources

I. Hydroelectric Power

- A. Uses
- B. Distribution
- C. Geologic Considerations
- D. Costs and Limitations
- E. The Future

II. Solar Power

- A. Uses
 - 1. Heating
 - 2. Generation of Electricity
 - a. Photovoltaic Cells
 - b. Solar Powered Turbines
- B. Costs and Limitations

III. Wind Power

IV. Tidal Energy

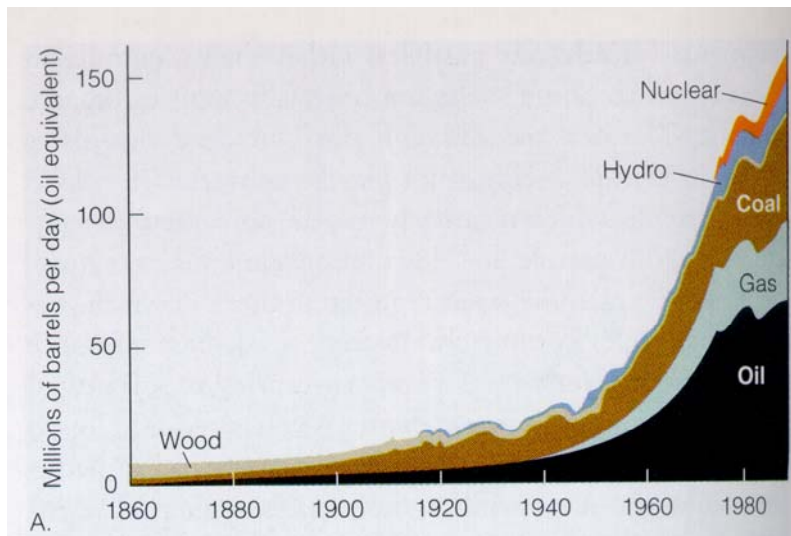

- A. Uses
- B. Costs and Limitations
- C. Future

V. Biomass Energy

- A. Uses
- B. Costs and Limitations
- C. The Future

VI. Gas Hydrates

- A. Composition
- B. Distribution and Abundance
- C. Potential Environmental Problems

Structure of Gas hydrate
